

EMG Eisen- und Metallguss GmbH

---

**EMG Eisen- und Metallguss GmbH**  
in Villach is a company specialising  
in the manufacture and sale  
of metal castings.

With EMG's manufacturing expertise, you can not only source customised foundry products for your requirements, but also work with manufacturers in a global manufacturing network.

**1. Production of castings:** The company supplies various types of metal castings used in a wide range of industries including mechanical engineering, automotive and construction.

**2. Metal Processing:** In addition to casting, EMG also offers metal processing services, including CNC machining, welding and component assembly.

**3. Customised solutions:** EMG develops and produces customised solutions to meet the specific requirements of its customers. This may involve the development of new castings or the modification of existing products.

**4. Quality assurance:** The company places great emphasis on quality control and certification to ensure that its products meet the highest standards.

**5. Distribution and logistics:** EMG also offers comprehensive logistics services to ensure that products are delivered to customers efficiently and on time.

---

**This combination of production, processing and service makes EMG Guss- und Metall GmbH an important partner for many companies that require high quality metal castings and solutions.**
